

## **“The Moving Forward” Elimination Dinner to support the Nugent Family**

Due to a near death accident in February 2024, Wes Nugent, a young father of two, was left paralyzed and in need of 24-hour care. The purpose of this elimination dinner, on November 15<sup>th</sup>, will help offset the cost of a medical van for the Nugent family. With your help and support Wes will once again have the freedom to attend church services, watch his children’s school and sporting events, and even go out with his wife and friends. Medical vans can cost anywhere from 75 to 90 thousand dollars. Please consider choosing a sponsorship level listed below and help this family “move forward”.

---
